SUMMARY

A versatile, tech-driven professional with over 5+ years of experience in digital content creation, technical operations, and client relations. Expert in Adobe Creative Suite, OBS Studio, and multimedia production, with a strong foundation in full-stack development, system administration, and hardware troubleshooting. Highly adaptable and recognized as a rapid learner, I leverage advanced AI tools, custom scripting, and workflow automation to maximize efficiency and deliver high-impact results. Possessing fluent English communication and persuasive negotiation skills, I have a proven track record of managing full international sales cycles from initial client consultation to project delivery. I am eager to bring my multi-disciplinary expertise to a forward-thinking organization, driving business growth through creative design, seamless technical coordination, and strong client partnerships.

PROFESSIONAL EXPERIENCE

Freelance Graphic Designer & Video Editor | International Marketplaces **Jan, 2020 – Present**

- Managed the complete project lifecycle for international clients, from requirement gathering to final delivery.
- Produced high-fidelity visual assets, including logos, social media graphics, and video content.
- Successfully negotiated project scopes and closed sales, building long-term freelance partnerships.

Freelance Graphic Designer | Liquid Productions **May, 2023 – Nov, 2023**

- Integrated technical solutions for live broadcasting, including OBS Stream Overlay setup and Dynamic Google Sheets integration.
- Conducted real-time technical operations during live streams to ensure seamless broadcast quality.
- Developed custom visual elements and documentary-style video content with high customer satisfaction.

Freelance Graphic Designer | BuB Gadgets **Nov 2022 – May 2023**

- Managed social media business accounts, handling customer inquiries and successfully closing product sales through chat and calls.
- Produced high-quality promotional posts for Facebook and online advertisements that increased engagement and sales leads.
- Maintained organized digital asset libraries (Google Drive) for efficient team collaboration and content retrieval.

PROJECTS

- **Automated Esports Data Visualization Tool (Python):**

  Developed a custom Python automation script for 1-click rendering of raw match statistics into professional broadcast graphics.

- **Stream Architecture (Liquid Productions):**

  Architected end-to-end OBS stream setups with custom overlays and edited high-quality documentary content.

- **Esports Graphic Design:**

  Designed comprehensive branding packages (logos, banners, UI assets) for multiple competitive Esports teams.

- **Linux Server Admin (Nightmare SMP):**

  Deployed and managed a public gaming server on Oracle VPS using Ubuntu, SSH, and MCS Manager, scaling to 70+ active users.

- **Multimedia Voice Talent:**

  Produced, edited, and provided professional English voice-overs for instructional technical tutorials.

EDUCATION

- **Diploma in Computer Science and Application (DICSA)** **(2025 - Present)**

  Bangladesh open university (BOU)
